Gladioli Dahlias Peonies

1926

GROWN AND OFFERED BY

J. V. EDLUND

12th ST. AND DIVISION AVE.

WHITE BEAR LAKE, MINNESOTA

How to Grow Gladioli

Gladioli, like all cultivated crops, need some thought in regard to culture. While they will grow and bloom under most conditions, it is necessary to observe certain things to bring out the best there is in any variety. The soil should be well prepared, and reasonably rich. A good grade of potato fertilizer or bone meal may be used if needed; but if the ground is reasonably rich nothing need be added for satisfactory bloom.

Spade deep and pulverize thoroughly. Gladioli to do their best must have plenty of water and sunshine, always water in the evening.

Plantings may be made any time from early garden making time until the middle of June, which is about as late as is safe to make the last planting in order to secure flowers before frost. Plant in rows, four to six inches deep for large bulbs, small sizes in proportion; placing the bulbs right side up about four to six inches apart. Rows should not be less than eighteen inches apart.

Cultivate often and thoroughly; the more you cultivate the better they grow. Do not allow the ground to bake around the plants. The bulbs should be dug before the plants are too ripe and before hard frosts. Dig the bulbs and cut off the tops close to the bulb. Dry well in the open air and sunshine, then put in dry airy place for two or three weeks to cure. Be sure to protect against frost. As soon as well dried the old bulb, bulb-lets and roots can easily be removed.

Put bulbs in trays not over four inches deep. Store in cellar or basement where the temperature is uniform and around 40 to 45 degrees.

FOR CUT FLOWERS

Cut spike when first bud opens, leaving at least four or five leaves on stalk to mature the bulb. Place in water and change the water each day, at the same time cutting a little off the end of stem. Placing flowers in cellar at night will add to the life of the bloom.

MINNESOTA GROWN

Minnesota grown bulbs are conceded to be the best produced anywhere, because of the climatic conditions which tend to develop a much firmer, healthier bulb than those grown under warmer and more humid climatic conditions.

Our Collection of Gladioli was awarded first prize at Minnesota State Fair 1925.

GENERAL INFORMATION

Order early. As the stocks of some of our finest varieties are limited, early orders are solicited to prevent disappointments in case the varieties selected should be sold out.

We do not ship any bulbs until March 1st, except by special request and then at the purchaser's own risk. No orders accepted after May 1st.

We do not substitute unless directed to do so.

Remittance must accompany all orders from unknown parties.

Please write your name and address plainly.

Six bulbs sold at the dozen rate.

We pay postage. Visitors always welcome.

OUR GUARANTEE

Every bulb offered is absolutely true to name and up to size. We consider a bulb $1\frac{1}{4}$ inches in diameter a good blooming size.

Dear Sir:

The Gladioli bulbs I ordered from you recently came through in fine shape. I am more than pleased with them. To begin with they are the largest bulbs that I ever received of a dealer or grower, and the extra one you sent was very acceptable as I have none of that variety and I thank you very much for it.

Respectfully,
C. S. H.

Dear Sir:

I received your bulbs some time ago in good condition; fine bulbs. Thank you for the extras.

Yours for more Glads. G. G. O.

Milwaukee, Wis.,

Nov. 17, 1924.

J. V. Edlund,

White Bear Lake, Minn.

Dear Sir:

The bulbs ordered from you came in good condition today. I wish to thank you for the extra bulbs. I am very pleased with your bulbs. They are surely up to size and then some.

Yours truly, J. K.

Dahlias

Although our specialty is growing, Gladioli and Peonies, we have devoted a limited space to Dahlias. We have selected varieties that grow and bloom well even in very dry times such as we often have during the month of August, in this vicinity.

Planting should be done from May 10 to June 1st. The tuber should be laid flat down, with eye upwards, about five inches below the surface; cover with rich earth about two inches, then about an inch of compost mixed with wood ashes if possible, and the balance of the hill filled with soil in which has been mixed a small amount of lime and nitrate of soda. Tubers should be set at least three feet each way.

Cultivation—Cultivate deep until the plant is in bloom; when in bloom and the rest of the growing season, cover the surface with straw, hay, lawn clippings, or most anything about four inches deep. No cultivation.

Never allow the blooms to die on the plant, or to go to seed. This is the one thing that will keep your plants in bloom for a long time. After digging, they should be stored in a frost-proof cellar, tops down, with a little dirt sprinkled over them.

Prices quoted are for field grown divided roots. No orders shipped before May 1st. Postage will be paid on all orders of \$1.00 or more; of less amounts a charge of 15c will be made to cover postage.

AMUN-RA—A decorative of great size in the richest shades of coppery bronze. The stems are long and stiff, and the flowers keep splendidly.....Each \$2.50

BALLET GIRL—Cactus. This is one of the most striking dahlias in our gardens. Some of the flowers are orange edged white, others pure orange and still others a variation of white and orange, all on the same plant. A splendid cut flower and there is no better for exhibition.....Each \$1.50

COUNTESS OF LONSDALE—Cactus. The freest flowering Cactus dahlia in the collection, and perfect in form. Color, an exquisite shade of rich salmon, with just a suspicion of apricot at the base of the petals.....Each 35c

CALIFORNIA ENCHANTRESS—Hybrid Cactus. Beautiful shade of light pink. The large, well-formed blooms are held erect on long stout stems.....Each \$1.00

DREERS WHITE—Show Dahlia. A pure glistening white, a large ball-shaped flower with closely quilled petals. Unsurpassed by any other variety in freedom of flowering.

Each 35c

GLADYS SHERWOOD—Hybrid Cactus. A very large cream white flower on a straight stiff stem. A prolific bloomer.

Each \$1.00

GRIZZLY, THE—Decorative. The richest deep velvety red dahlia yet produced. The plant is a vigorous grower and the very large, stately blooms are held high on extra stout stems. Does especially well in a warm climate.....Each \$1.00

GLORIANA—Decorative. Color, pure old gold, intensified by a reddish glow in the center. Exceptionally good, long, leafless stems hold the flowers well above the plants.

Each \$1.50

MEPHISTOPHELES—Decorative. The color is a ruby red, showing golden yellow points at the very ends of some petals, thereby greatly enhancing its beauty. Average height, six feet.....

Each \$3.00

MINA BURGLE—Decorative. The most popular red decorative dahlia in the flower shops today. A wonderful cut flower, free bloomer and large plant.....

Each 35c

MRS. CARL SALBACH—Decorative. One of the most successful prize winning dahlias. An immense bloom of a lovely mauve, or mellow pink shading, lighter to the center, and every petal outlined in deep mauve. The stems are extra long and strong, holding their splendid blossoms erect, making it a valuable cut flower.....

Each \$1.00

MRS. EDNA SPENCER—Cactus. A splendid example of the American Cactus. The color is exquisite lavender pink. The blooms are of good form and size, coming full to center till late in season.....

Each 75c

MRS. I. DEVER WARNER—Decorative. Very large, beautiful flowers of fine form and substance. Color is a rich mauve. Stems long and rigid. Very attractive in the garden and one of the best for exhibition and cutting. We consider it one of the best dahlias on our list.....

Each \$2.00

PEG O' MY HEART—Decorative. A deep saffron salmon rose color of great merit. Very tall grower, on long wiry stems. The blooms are so large and heavy that the stems droop under its weight. One of the best bloomers in our garden, summer of 1925, in the dry hot spell of July and August.....

Each \$1.50

PRIDE OF CALIFORNIA—Decorative. A vigorous grower and a very free bloomer. The large deep red flowers are borne high above the foliage on very long, rigid stems, and keep exceptionally well when cut.....

Each 50c

PRINCESS JULIANA—Decorative. An ideal pure white for all purposes. A splendid cut flower and a good decorator for the garden. Early bloomer.....

Each 35c

QUEEN WILHELMINA—Peony-flowered. Another grand waxy white, showing yellow center. Free flowering on long wiry stems.....

Each 35c

SHASTA—Decorative. A very large white, with long stems. The petals are cleft, giving it a fringed appearance.

Each 75c

SNOWDRIFT—Decorative. A giant white with broad waxy petals, which form a most perfectly shaped flower on comparatively dwarf plant, on stiff stems, always holding the flower so as to display its full beauty.....

Each \$1.00

WIZARD OF OZ—Decorative. One of the largest dahlias grown. The color is a glowing amber pink, soft in tone. The plant is a strong grower, and flowers are held erect on stout stems.....

Each \$6.00

Peonies

Peonies are perfectly hardy, requiring no protection whatever, even in the most severe climate, and once planted, increase in beauty each year.

Planting—Peonies may be planted any time in the Fall, from September 1st until the ground freezes. No Peonies are handled by us in the spring, as that is entirely the wrong time to plant them.

Size of Root—Making a specialty of growing Peonies and Gladioli, our progress depends entirely upon results obtained from our roots and bulbs; for this season we quote prices on 3 to 5 eye, or large divisions only.

Important! An important point to observe in the planting of Peonies is not to plant too deep. The roots should be placed so that the eyes are two inches below the surface, and the soil tightly packed about them.

Shipments—Orders from one to three roots can go cheaply by parcel post. We will ship this way if customer will remit with order, ten cents extra for each root ordered. Larger orders should go by express, collect. Excess postage will be returned.

VISITORS ARE ALWAYS WELCOME

The figures that follow the variety name denote the rating given by the American Peony Society. The valuation is based on a possible score of ten. Where no rating is shown, the variety is too new to have had sufficient votes to be properly judged.
